

Providing Natural Light
& Ventilation!

Nova-Lite **Vu**
PANEL

When only the most attractive and durable ventilation and natural light panel
will do, then Nova-Lite Vu is your number one choice!

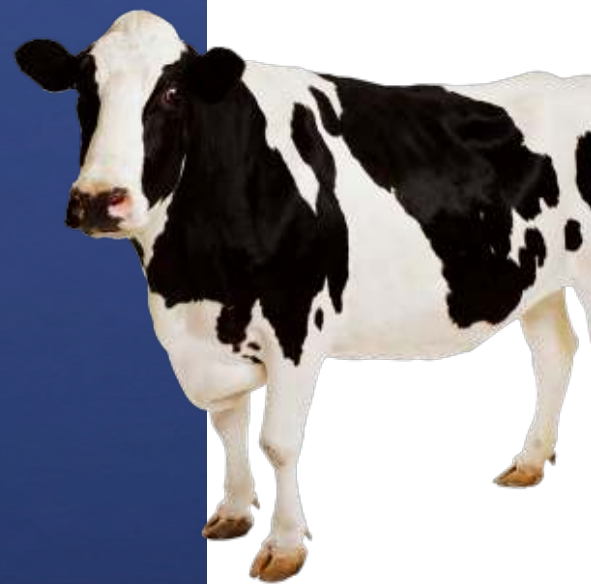

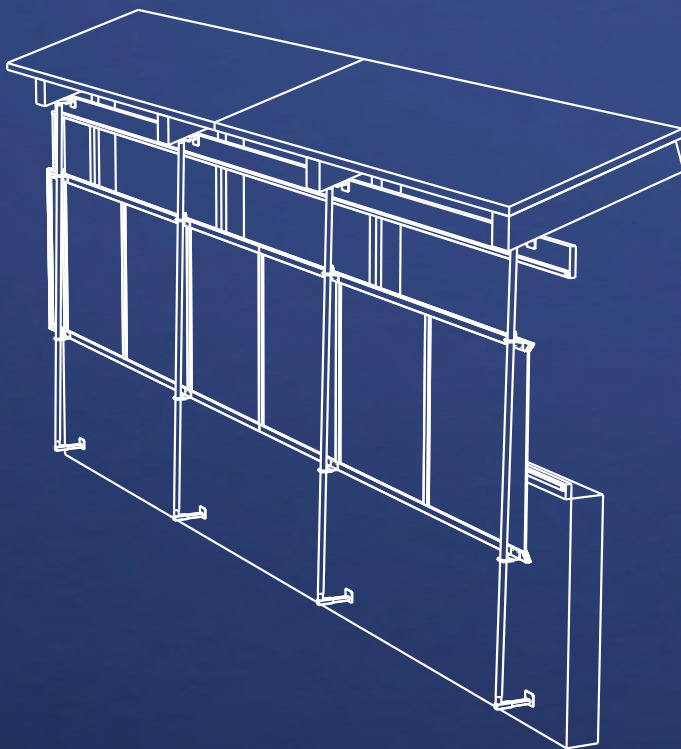

Durable & Attractive Clear View Panels

The Nova-Lite Vu Panel

Sun-North Systems Ltd. manufactures and installs Nova-Lite Vu sliding crystal clear acrylic glass panels in a wide range of sizes. The panels are virtually unbreakable and allow full light penetration.

Nova-Lite Vu offers a variable ventilation opening with an all aluminum heavy duty window frame assembly. Our clients find it the best panels for their tie stall barns, milking parlours and equine areas.

- Continuous sidewall windows made to fit any length.
- 12" to 6' in height.
- Minimum maintenance.
- Stainless steel cable systems and pulleys with bearings to ensure long life.
- Nova-Lite Vu panels typically drop to open but an option to pull up to open is available.
- Perimeter gasket system and adjustable brackets to ensure a good seal between panel & structure.

** We also have Nova-Lite XL which is available as a polycarbonate panel. Nova-Lite XL offers many of the same features with the added benefit of being 2X the insulation value.
